## PROFILE

---

IT Management student at UADE (Universidad Argentina de la Empresa) with a strong focus on software development. Hands-on experience building native Android applications with Kotlin and Jetpack Compose, web development with React and TypeScript, and backend services with Node.js. Passionate about delivering real-world solutions using modern technologies, including artificial intelligence integration and cloud services.

## PROJECTS

---

### OlaCheck — Android Beach Conditions App [View repository](#)

**Stack:** Kotlin · Jetpack Compose · MVVM + Clean Architecture · Firebase · Room · Gemini AI · Hilt

- Native Android app for surfers and beachgoers on Argentina's Atlantic coast (Pinamar, Cariló, Ostende, Valeria del Mar): displays real-time water and air temperature, wind speed, tides, and wave height.
- Integrated Google Gemini API to deliver AI-powered personalized wetsuit recommendations based on current beach conditions.
- Google Sign-In via Firebase Authentication; real-time community section (comments, photos, videos) powered by Firebase Firestore and Storage.
- Offline-first architecture with Room (SQLite) local cache; Material Design 3 responsive UI. UI prototype built in Figma prior to development.

### CreaPresupuestoPDF — Android Quotation App for Aluminum Carpentry [View repository](#)

**Stack:** Kotlin · Jetpack Compose · MVVM · Room · iText 8 · Material Design 3

- Android app for managing quotations for windows, doors, and railings: create, edit, duplicate, and delete budgets with unique identifiers, project details, and labor costs.
- Generates professional PDFs with scaled technical diagrams per item, company logo header, watermark, and itemized pricing table.
- Full client management with search by name, tax ID, phone, and email; local database powered by Room. 91 commits of development history.
- Built-in sharing: send generated PDFs via WhatsApp, email, or any installed app.

### Task Manager App — Collaborative Web Application [View repository](#)

**Stack:** TypeScript · Node.js · npm

- Web application to create, assign, and manage tasks within work teams.
- Built in TypeScript with a modular src/dist architecture; collaborative workflow demonstrated through GitHub Pull Requests.

### Personal Portfolio Website — Live in Production [View live site](#)

**Stack:** React 19 · TypeScript · Tailwind CSS 4 · Vite 7 · Vercel

- Personal portfolio deployed on Vercel with automatic CI/CD from the main branch.
- Fixed navbar with active-section scroll detection, scroll-reveal animations via Intersection Observer, and mobile-first responsive design.
- Sections: hero, tech stack, projects, about me, and contact.

TECHNICAL SKILLS

|                  |                                                                                                         |
|------------------|---------------------------------------------------------------------------------------------------------|
| Mobile (Android) | Kotlin · Jetpack Compose · MVVM · Clean Architecture · Room · Hilt · Navigation · StateFlow · DataStore |
| Web Frontend     | React 19 · TypeScript · Tailwind CSS · HTML5 · CSS3 · JavaScript · Vite                                 |
| Backend          | Node.js · SQL Server · MySQL · MongoDB                                                                  |
| Cloud & Services | Firebase (Auth · Firestore · Storage) · Gemini AI · Open-Meteo API · Vercel                             |
| Tools            | Git · GitHub · Android Studio · VS Code · Figma · Gradle                                                |
| Other            | Java · Python (basic) · Computer Networking (CCNA 1)                                                    |

EDUCATION

**B.Sc. in Information Technology Management** — UADE (Universidad Argentina de la Empresa)  
Ongoing · 2023 – Present

WORK EXPERIENCE

**Field Sales Representative (Preventista)** — Local distributors, Pinamar  
2019 – Present · Pinamar, Buenos Aires

- Managed a client portfolio and covered an assigned territory for distributors of leading beverage brands (Fernet Branca, CCU Argentina, Cervecería y Maltería Quilmes).
- Negotiated and closed sales deals, handled order follow-up and client issue resolution independently.
- Coordinated with logistics and administration teams to ensure on-time deliveries and monthly target achievement.
- Used digital sales management tools to log client visits, process orders, and track performance metrics.

SOFT SKILLS

- Effective communication with clients and teams
  - Negotiation and persuasion
  - Teamwork and collaboration
- Results-oriented and goal-driven mindset
  - Self-organization and autonomous time management
  - Adaptability and continuous learning

LANGUAGES

**Spanish:** Native | **English:** Technical proficiency (documentation reading and comprehension)
